

REMARKS

Species A was previously elected for examination and includes claims 1-17, 31-35, 41-45, 48, 60-77, 91-95, 101-105, 108 and 121-136. Claims 49-59, 109-120 and 137-158 have been canceled above. The canceled claims are directed to species E-H, K and L. Accordingly, only claims that are directed to species A-D, I and J remain pending. As indicated in the previous response, claims 1-5, 43-45, 48, 60-65, 91-95, 103-105, 108, 121-123, 128-130 and 134-136 are considered as being generic inasmuch as they are considered to read on species A-D, I and J. Therefore, responsive to allowance of any generic claim, claims readable on species B-D, I and J should be rejoined. Moreover, all generic claims are readable on all species now pending, consistent with the manner in which these species have been set forth by the Examiner. Accordingly, as requested by the Examiner, it is respectfully submitted that a listing of claims has been provided which reads only on the elected species, as well as a listing of generic claims that read on all of the species. Applicant hereby reserves the right to present the canceled claims in divisional applications.

It is noted that generic claims previously identified with respect to the now canceled species were so identified for purposes of filing divisional applications. It is further noted that claim number 159 was inadvertently skipped in the original claim set as a result of a typographical error.

If the Examiner has any questions concerning this case, the Examiner is respectfully requested to contact Mike Pritzkau at 303-410-9254.

Respectfully submitted,

Michael M. Pritzkau
